

AW BAXTER

TRANSPORT | EXPORT PACKING | SHIPPING

**YOUR GLOBAL
LOGISTICS PARTNER**

WE DELIVER EVERY TIME

SINCE INCORPORATION IN 1992 WE HAVE GROWN TO BECOME THE COMPLETE GLOBAL LOGISTICS SOLUTION.

Although based in the UK, we operate globally across land, air and sea. Thanks to a wealth of in-house expertise and experience, we are trusted worldwide to move your cargo wherever it needs to go, on time and on budget.

Whether it's providing a bespoke export packing service, UK transport, global freight or storage, we deliver every time.

As a family owned, independent company we have the knowledge, experience and determination to make every job flexible and personal. Although we cover the globe, managing contracts worldwide, we still remain strong with our core values of partnership and client satisfaction.

GREAT BRITISH EXPORTERS

...WE'RE WITH YOU EVERY STEP OF THE WAY

BUILT TO GO THE DISTANCE

CASE MANUFACTURE

AW Baxter has decades of experience in designing and manufacturing custom cases for air and ocean freight. From a 70 tonne boiler to a bronze sculpture - AW Baxter can create the bespoke case to suit.

AW Baxter export cases can be supplied flat pack, for ease of transportation, and then constructed on-site either by the customer or by our own specialised on-site packing team.

Our case makers are always thinking of the next stage of delivery, so every packing design includes exactly the right kind of lifting lugs and lashing points to enable easy lifting on and off a ship or aircraft. Whatever it takes, we will ensure the case provides all the protection your cargo needs.

All our cases, crates and pallets are constructed with heat treated ISPM 15 timber to ensure it is safe for exporting to any global destination.

Case options include:

- Closed boarded timber cases
- Open boarded timber cases
- Heavy duty pallets and bases
- Bespoke pallets and stillages
- Custom cases

60,000 sq ft PACKING FACILITY
20,000 Kgs OVERHEAD CRANE CAPACITY
24,000 Kgs FORKLIFT CAPACITY

PERFECTLY PACKAGED

EXPORT PACKING

We recognise the importance of securely packing equipment to ensure its safe carriage around the world. Our combined packing and case manufacturing facility is capable of handling abnormal loads with heavy overhead crane assistance and offers the provision of a fully flexible service from a small single unit through to a complete turnkey project.

We have the capability to consolidate direct from your suppliers, pack for export, and ship to meet the timing demands of your contract.

- Our facilities include:
- 60,000 sq ft packing facility
 - 20,000 Kgs overhead crane capacity
 - 24,000 Kgs forklift capacity
 - Container loading
 - Abnormal load handling
 - Hazardous packing with DGSA

Having the skills and equipment to deal with almost any hazardous cargo, from flammable liquid to compressed gas, AW Baxter ensure packing and marking of all shipments conforms to IATA and IMDG regulations and issue a DGN (Dangerous Goods Note) where required.

DESIGN / PRODUCTION /
PACKING / FORWARDING

CONTENT CONSIDERED

PROJECT PACKING

AW Baxter are experienced in handling long term, packing and logistics contracts around the world, providing complete end-to-end project management.

Whatever your contract, we can provide packing, consolidation, freight and storage. As well as full documentation and advise on exact legislation and requirements for any country.

Our excellent reputation as an all round logistics provider for the packing and delivery of heavy, out of gauge, and abnormal cargo, has been achieved through our years of experience with many multi-national customers. We have provided all types of project logistics to the mining industry as well as the energy, manufacturing and construction sectors.

To provide the all inclusive logistics solution, our Midlands depot is a 60,000 sq ft site, with up to 20 tonne crane lift capacity. The facility is able to handle cargo packing, consolidation, container stuffing, lashing, chocking and securing out of gauge shipments.

- Site security including CCTV, protection fencing, and 24/7 security patrols are standard across both sites
- We operate 3.5T to 24T forklifts, 5T to 20T overhead gantry cranes, mobile yard cranes, a trailer park, a weighbridge, pallet and long product racking, and a Versa heavy lift forklift
- Clients will deliver goods to our site, where we will manage all stock, check for defects and shortfalls, and enter data into our integrated system
- Our team has extensive experience in receiving, handling, and checking items to provide a full 4PL service

OUR LOCATION, 3 MILES
FROM THE M6 AND M5,
ENSURES EXCELLENT
NATIONWIDE ACCESS.

THE COMPLETE SUPPLY CHAIN

ONLINE SOLUTIONS TO COMPLEX DEMANDS

As a truly global logistics company, AW Baxter are able to utilise our many agents across the world to ensure your cargo is our priority every step of the way.

Overcoming languages, cultures and organising relevant documentation often means that export orders are difficult to manage, however with our online web tracking facility you are never more than a click away from your cargo's progress. Online web tracking provides order information, shipping schedules and communicates any deviations from the agreed plan directly to you and your customer.

Our complete supply chain package allows a single-source solution to imports, export packing, distribution and freight forwarding anywhere in the world.

Supply chain services include:

- Door to Door solutions
- Pick and Pack
- Labelling, distribution and inspection
- Checking orders against purchase requests
- Full consolidation of multiple suppliers
- Online web tracking
